

The Perfect Child of the Sun : The Art of Astral Crawling

From my memories of reading Wild Seed, I remember the two immortals Anyawu and Doro very vividly. I aim to explore this world more, to learn about the powers of Telepathy and shapeshifting. As well as the Aliens of her work. I am just trying to improve my fictional foundation to my reality with these commentaries. I am going to have fun with this. I am really interested in Telepathy and Shapeshifting, and the concept of Metamorphosis and how to obtain these two specific powers. This Treatise is my quest to discovery and schooling,

That is metamorphosis is a poetic book, and training manual for a being who is the the child of the two spirits capable of wielding these two powers to the best of its ability. Telepathy is spiritual in nature and Shapeshifting is Astral in nature. From these two powers branches healing, and Resurrection and Immortality.
